## OBJECTIVE

Gain knowledge and experience in front end development as this is a subject that I am eager to learn more about and develop my skills in. Design and basic color theory is something I have worked on as well to improve the aesthetics of the websites I create and I would love to learn to develop those skills further as well.

## EDUCATION

**Computer Science DEC** | John Abbott College

**2021 – Expected May 2024**

- Proficiency in Microsoft applications (Word, Excel, PowerPoint)
- Proficiency in HTML, CSS and JavaScript
- Proficiency in basic Object-Oriented Programming (OOP)
- Learned WordPress and its various extensions.
- Knowledge in networking and virtual machines
- Learnt PowerShell and Bash scripting.

**Diplôme d'Études Secondaires (DES)** | Collège Notre-Dame

**2016 – 2021**

- Obtained high recognition by peers and teachers during ethic debates.
- Participated actively in every class providing insights or asking questions.
- Recognized by my teachers as one of the most punctual students.
- Attended the Q&A sessions with the teachers when I required help on a certain subject.
- Received a recommendation letter from the Chemistry teacher highlighting my potential and dedication to work.

## Experience
